Tulare Local Healthcare District Honors Adventist Health Tulare

Tulare, CA – The Tulare Local Healthcare District (TLHD) recently honored Adventist Health Tulare for five years of inspirational service to the city of Tulare and the surrounding communities. TLHD presented a recognition award to Adventist Health five years to the day after the hospital re-opened on October 15, 2018, as Adventist Health Tulare hosted a celebration complete with music, dancing, food, give-a-ways and even pony rides free to the public.

Adventist Health was selected by TLHD in 2018 to join forces and re-open the, then-closed, hospital and manage operations before the District voters overwhelmingly supported a deal with Adventist Health to lease the hospital.

In the time since the hospital re-opened on Monday, October 15, 2018, Adventist Health has invested tens of millions of dollars in Tulare and provided care to thousands of patients.
