

**Tulare Regional Medical Center**  
**May 8, 2019 Medical Staff Credentialing Action Report**

**Requests for Initial Appointment:** Practitioners applying for initial appointment were found to meet the requirements for appointment to the Hospital. The factors used to determine that the practitioner meets the requirements for membership and clinical privileges are as follows: current licensure, DEA, education and training, professional liability insurance and claims history, board certification as required, past and/or pending professional disciplinary actions, present mental and physical health status, peer reference recommendations and professional performance data for current clinical and technical competence for clinical privileges requested.

**Other Actions:** The requests and supporting documentation for changes in clinical privileges, advancement for Provisional Status, change in Staff category, leave of absence, and resignation from the medical or allied health staff were reviewed. It was determined that the practitioners met the requirements for the actions requested.
